## AROMATOUCH

AromaTouch Massage (45mins)	70
-----------------------------	----

The AromaTouch Technique is a simple yet powerful way to provide every individual with an essential oil experience. Unlike traditional massage, it utilises eight oils that promote relaxation and stress relief, offer immune support, decrease pain and inflammation and elevate mood. Through a specific application technique the oils stimulate homeostatis in the body via the energy or meridian lines. Although a gentle technique, it is extremely relaxing and energising at the same time.

## KINESIOLOGY

Kinesiology balances stress in the body by using a muscle test to access information about the stress and its symptoms. The practitioner undertakes a process of investigation to trace pathways of stress until the root cause can be found. The kinesiologist assists the body to de-stress with the use of gentle techniques such as acupressure, sound, light, and energy healing.
